## SSVF Grant Renewed!

InteCare is pleased to announce that it's Department of Veteran Affairs Supportive Services for Veteran Families (SSVF) grant was renewed for 2016. In its second year of operation in 2015, InteCare's SSVF program served over 430 households and provided over \$530,000 in financial assistance on behalf of Veteran households.

## SSVF Helps Veterans Obtain Permanent Housing

87% of SSVF households served in 2015 obtained permanent housing as a result of their participation in the SSVF program.

A big part of our success helping Veteran families to find permanent housing is our relationship with landlords. Our landlord relationships serve an essential role in assisting participants with obtaining permanent housing. InteCare's 2015 landlord satisfaction survey indicated 100% of landlords who worked with the SSVF program were satisfied with their experience.

## Program Participants are Satisfied

The most important feedback we receive is from our Veteran households. We ask all households about their experience with our program at the time of exit. This year, 93% of households that participated in InteCare's SSVF program in 2015 reported overall satisfaction with the services they received.
